PROFESSIONAL SUMMARY

Motivated AI and Data Science undergraduate (CGPA: 3.2) with hands-on experience in Python, Machine Learning, Deep Learning, and Cybersecurity. Proven track record of building real-world software solutions and delivering freelance projects. Active Executive Member of a university innovation program and participant in national hackathons and social-impact initiatives. Seeking an internship to apply academic and practical expertise in a forward-thinking organization.

TECHNICAL SKILLS

Programming Languages: Python, Flutter, SQL, HTML/CSS

AI / ML Frameworks: TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, OpenCV

Data Science Tools: Jupyter Notebook, Matplotlib, Seaborn, Data Preprocessing

Cybersecurity: Network Security, Risk Assessment, Google Cybersecurity Fundamentals

Hardware & IoT: Arduino, ESP32, Wireless Communication Systems

Tools & Platforms: Git, VS Code, Figma, Fiverr, Upwork, Bug Tracking, Agile / SDLC

EDUCATION

Bachelor of Science in Artificial Intelligence (BSAI)

Aror University of Art, Architecture, Design & Heritage — Sukkur, Pakistan

CGPA: 3.2 / 4.0 | Executive Member — Computer Science Society

2024 – 2028

PROFESSIONAL EXPERIENCE

Bug Reporter / QA Intern Private Software House — Sukkur

- Identified, documented, and reported software bugs with detailed reproduction steps, helping the dev team resolve critical issues faster.
- Performed manual testing of web and desktop applications across multiple modules and release cycles.
- Collaborated with developers to validate bug fixes within Agile workflows; gained practical SDLC and QA methodology exposure.

2023 – 2024

Freelance Software Developer Fiverr & Upwork — Remote

- Designed, developed, and delivered a complete custom software solution for a client at PKR 90,000 in the local Sukkur market.
- Managed full development lifecycle — requirements gathering, design, coding, testing, and deployment.
- Active member of ACIP (Aror Creative & Innovative Program), contributing to innovation-driven initiatives.

2024 – Present

KEY PROJECTS

Face Recognition System | Python, OpenCV, Deep Learning

- End-to-end pipeline: data collection, preprocessing, model training, and real-time live inference on custom dataset.

Learning Management System | C++

- Console-based LMS covering student enrollment, course management, and grade tracking.

Arduino Length Measurement | Arduino, C

- Embedded system using Arduino sensors to measure object lengths with real-time display output.

NLP vs AI Chatbot — Research | Python, NLP, Transformers

- Comparative research on traditional NLP vs. modern AI agents; report covering accuracy, context, and performance metrics.

Seat Arrangement System | Java

- Automated exam-hall seat arrangement system reducing manual effort and minimizing human error.

ESP32 Wireless Communication | ESP32, IoT

- Wireless communication prototype using ESP32 for real-time data transmission between devices.

CERTIFICATIONS & ACHIEVEMENTS

Google Cybersecurity Professional Certificate — Google / Coursera (2024)

ACIP — Aror Creative & Innovative Program — Aror University | 4 companies (2024)

Women Independence & Environmental Change — Community / NGO Initiative (2024)

Data Science — PITP Program — Sukkur IBA University (2024–25)

Hackathon Participation Certificate — National / Regional (2024)

LEADERSHIP & ACTIVITIES

Executive Member — ACIP (Aror Creative & Innovative Program) Organized innovation programs with 4 major companies; represented the university at the Women Independence & Environmental Change Program; participated in a national hackathon demonstrating problem-solving and teamwork.

Available for immediate internship • Open to on-site & remote • Sukkur, Pakistan
